

# Data Points

Issue 57

August 26, 2005

## “Service To Date” Limits

Each event in our dataset has a required “Service From Date” (the date the service was initiated) and an optional “Service To Date” (the date the service extends through). Though not required, if the “Service To Date” field is used, it must be a valid date on or after the “Service From Date” or it will generate a General Error. **Starting this Fiscal Year, the “Service To Date”, if reported, must be before the end of the System Reporting Month.** If the “Service To Date” is later than the last day of the System Reporting Month, a General Error will be reported and the field will be set to null in the database.

## HR Submission Required in July

All Centers will need to submit an HR data file with the July submission, and at the beginning of each future fiscal year. With the exception of the July submission, the HR data set is not required on a monthly basis.

## New Reports Available

For your information, six papers on HIPAA security are available in the Reports drop-down box on the CMHC Data Implementation Guide Download page ([http://www.mhmr.ky.gov/cmhc/cmhc\\_data\\_guide.asp](http://www.mhmr.ky.gov/cmhc/cmhc_data_guide.asp)); there is a link to this page on the Data Set Information page).

There is a new Performance Based Outcomes Status Report showing the forms due, received, and approved for each Region. This report is available at the top of the “Performance Based Outcomes Information” web page (<http://www.mhmr.ky.gov/kdmhmrs/perfbasedoutcomes.asp>); this page is listed when you click on “Community Mental Health Centers (CMHC)” on the main KDMHMRS web page.

## Request for Estimate of Clients without SSNs

Please give Dennis Moore ([Dennis.Moore@rdmc.com](mailto:Dennis.Moore@rdmc.com)) an estimate of how many clients your Center treated during FY 2005 who did not have a valid SSN. We are trying to discover the extent of this situation.
